TERMS & CONDITIONS

RETURNS

All returned products require a Return Goods Authorization number. Contact our office to obtain an RGA number, RGA will be given under the following terms:

- Shortages or damaged goods must be reported with 7 days of order delivery.
- Returns from customers are only approved in case our sales person is actively ordering for the customer. Self ordering customers have no return privileges.
- Returns from actively-serviced sales reps are approved for a maximum of 3% of the customer's annual purchases. Returns above this percentage will not be accepted.
- Locations doing a lobby reset or closing down have no return privileges - returns are only accepted for actively ordering customers.
- Products to be returned should be carefully packed and include an itemized list. Please include your account name, account number and complete address of your location. Credit will be issued after verification of merchandise is received.
- Merchandise returns may be subject to a restocking fee of up to 30%.
- All returns for credit on account, no cash refunds will be issued.
- Snacks, food, Vending items, Parts and Supply items and other perishables are not returnable - no credit will be issued for those items.

PAYMENT TERMS

- We offer terms based on Customers credit history, with approval of a signed and completed credit application.
- We gladly accept MasterCard, Visa and American Express with a signed credit card agreement.
- All accounts require a State Resale Certificate number to be on file.

FREIGHT

- Freight is prepaid on orders of \$350.00 or more for retail items. Fixtures, vending products, industrial products, car wash parts and car wash supply items are subject to freight charges regardless of minimum \$350.00 purchase.
- Minimum order is \$75.00.

PRICES

- Please consult our price list.
- Although we intend to maintain prices for the term of this catalog, we may be forced to adjust certain pricing during the year. Orders will be invoiced at the prices prevailing at the date of shipment.

AIR FRESHENERS

Superior Auto Extras offers the largest variety of best-selling and high profit margin AIR FRESHENERS in the car wash industry. We stock an assortment of styles and scents, including the best sellers from brands such as: Little Trees, Refresh Your Car, California Scents, Febreze, Glade, Yankee, and Scentique. In addition to carrying high quality products, our sales representatives are armed with extensive data including product knowledge and sales statistics to ensure your show room is supplied with the best items for your region and demographic. Moreover, our reps are experienced in showroom merchandising to maximize profit!

Little Trees

ORGANIZERS

Superior Auto Extras has joined with Luxury Driver to provide the very best car organizers. These car organizational products are manufactured using quality materials and multifunctional designs. With the customer in mind, these car organizers have non-skid surfaces and large storage capacities, and most importantly they are easy to install and very affordable. These products are appealing to a variety of customers ranging from the traveling sales rep to the stay at home parent. If your customer has a desire to keep their car clean and organized, our Luxury Driver organizers are the way for them to go!

AUTO MAINTENANCE

No car wash show room would be complete without automotive maintenance items! At Superior, we carry various auto maintenance products such as protectant wipes, leather cleaners, and anti-bacterial wipes — all manufactured by popular national brands including: Lexol, Armor-All, WD-40, and Blue Magic. Providing your showroom with these products ensures that your retail department is equipped with anything your customers need to keep their car looking as good as it did the day they bought it!

CELL PHONE ACCESSORIES

Cell phone accessories is one of the most important categories in terms of impulse purchases. In today's digital world, most everyone has a cell phone and/or a tablet of some kind. Superior Auto Extras knows that in this connected world, having a dead battery is one of the worst things that can happen. We proudly offer Shift Tech as our primary brand of mobile electronic accessories. Our selection covers virtually all devices, no matter the shape or size. We distribute all types of cords, chargers, mobile mounts, ear phones and more. Most importantly, Shift Tech is of the highest quality. With our customer's devices in mind, we won't risk selling you an item that will cause damage. We back this up with a complete list of Android and Apple Certifications with a manufacturer guarantee.

Premium cables, chargers and other accessories to keep drivers safely and effectively connected.

GENERAL MERCHANDISE

All car wash lobbies are best served to carry general merchandise items. The increased value to a car wash customer is noted by offering an array of general merchandise items. These items can include wallets, beanies, gloves and sunglasses, just to name a few. These items are available to hang on the wall, put in a counter display, as well as be merchandised in various floor displays. This category's success is based on high profit dollars for the car wash, needs of the customer, and an ever-evolving selection of products. Don't miss out on having the best selection of general merchandise for your showroom.

MICROFIBER AND TERRY TOWELS

Microfiber towels are great for washing, drying and waxing your ride. They gently remove dirt and grime by using thousands of microfibers to trap particles, preventing scratches to your ride. For drying, they absorb water 3x faster than cotton towels and retain over 7x their weight in water. For polishing, their revolutionary weave combines friction, static electricity and capillary effect to lift, hold and remove wax, glaze, polish and other surface residues with ease.

VACUUM HOSES

Superior Hoses have smooth interiors to insure efficient air flow. Our carefully designed exterior ridge creates the lightest and most flexible hose available on the market. The likelihood of kink or crush is simply eliminated with these benefits. These hoses are ideal for wet/dry vacuums in car wash, commercial, and industrial applications.

CHEMICAL INJECTORS

The CHEM-FLEX™ Injector is an innovative new product whose components are manufactured utilizing Kynar®, stainless steel, Hastelloy® and a proprietary O-Ring material to create the most chemical-resistant injector on the market. CHEM-FLEX injectors are designed to inject fluids or air into conveying liquid under pressure. The water being pushed through the injector creates a vacuum and the chemical or air is inducted into the water stream.

TIPS KIT

Metering tips are used to control the amount of chemical being drawn into the water stream. Metering tips are placed in the plastic tubing containing the chemicals and water flow. Each tip color allows the chemical to flow at a specific rate. The dilution ratio produced by the tips is measured by the water volume or GPM and pressure or PSI flowing through the plastic tube

HYDROMINDERS

When the solution level in a reservoir drops, the float activates a nonelectric, magnetic valve. Flow of water through the valve and to the proportioner siphons the liquid concentrate, automatically maintaining the level of solution. No electrical connections or special plumbing. All models are installed using standard plumbing fixtures. Engineered for maximum life and corrosion resistance. Stainless steel, nickel plated brass, glass filled nylon and molded polypropylene are used for durability and serviceability.

CAT PUMPS

Plunger: Plunger Pumps are triplex [three plunger rods] positive displacement, reciprocating, plunger pump, constructed of a forged brass manifold, 304SS valve assemblies, solid ceramic plungers and standard NBR [Buna-N] seals and O-Rings. Cat Pumps are the premier car wash pumps.

Piston: This is a triplex [three piston rods] positive displacement, reciprocating, piston pump, constructed with brass manifolds, 304SS valve assemblies, chrome-plated 304SS cylinders and sleeves and standard NBR [Buna-N] seals and O-Rings. Its low RPM is designed for belt drive. The Uniflow design features a mechanically actuated inlet valve providing a continuous forward fluid flow and strong suction.

Crankcase Oil ISO 68 Special Formula

Premium Grade. Cat Pumps custom blend crankcase oil is exclusively designed, tested and proven to maximize the life of your Cat Pump. This special formulated premium-grade, petroleum-based, ISO68 hydraulic oil contains the most advanced additive package to protect against wear, oxidation, rust and corrosion.

GENERAL PUMPS

The high-temperature pumps of the HT series have been designed for use in applications where the water must be pre-heated, such as in carwash, food, and pharmaceutical industries. Maximum temperature of the water through the pump is 185°F (85°C).

General Pump Industrial Oil is a premium multipurpose lubricant formulated to protect against rust and oxidation. It offers long service life and prevents sludge and varnish formation - even at high temperatures. General Pump Industrial Oil possesses a high natural viscosity index. This means more constant operating characteristics over a wide temperature range.

SPRAY GUNS

Black Heavy duty American-made shut-off gun with rear load design. An ergonomic handle and trigger design that allow the user to operate the gun in an easy manner. With the unique orientation of the discharge tube, the gun allows the user to work for long periods of time. The safety lock prevents accidental opening of the valve. Designed with a stainless steel control bolt, stainless steel cam, stainless steel seat and stainless steel ball, the gun features machined brass inlet fitting, and plated steel inlet and discharge tube. With a 4:1 burst ratio and six month warranty, this shut-off gun features the most durable design (in its class) in its industry.

You'll find a GunJet® spray gun ideally suited to your cleaning and rinsing operation. Choose from a wide range of clean-up and washdown guns for high-, medium- and low-pressure operation.

Dozens of compatible spray tips, materials and accessories are also available. Plus, a full line of extensions, inlet/outlet adapters, swivel connectors, and strainers ensure you'll be able to customize one of our spray guns to your exact requirements. Specially-designed handles improve control and reduce operator fatigue. Smooth-pull triggers enable accurate and consistent flow control. Textured grips minimize the chance for slippage and accidents. Leak-free operation.

SPRAYING SYSTEMS

The Spraying Systems Trigger Jet Wand is made of polypropylene for excellent corrosion resistance. 150 max PSI.

The adjustable cone jet spray tip comes with a Viton orifice insert and is used with the 22650 Trigger Jet Spray Gun. The tip has an easy finger-tip control to adjust spray pattern, capacity, spray angle, and coverage.

Spraying Systems Wash Jet spray tip with vain provides high-impact sprays that are ideal for washing applications with high pressure. The construction of stainless steel offers long service life. As the liquid flows through the round orifice, it forms into a spray pattern of a flat, even edge, type of fan. The distribution at pressures over 300 PSI remains even throughout.

PRESSURE ACTUATED UNLOADER

This is a pressure-actuated unloader designed for any pump that fits within the flow and pressure range of the unloader. The unloader regulates the flow in the system and maintains system pressure via an adjustable nut that controls the amount of tension on a pressure spring. When no flow is going out the outlet port, all flow is diverted to the bypass port at virtually no pressure. The unloader is capable of handling one or more shut-off guns and should be run with no bypass (if the full flow from the pump is going through the unloader). It actuates at around 10% above the system pressure.

P857064
Giant Stainless Steel Pressure Actuated Unloader With Red Spring - 2400 Psi
1 Piece \$128.60

PRESSURE REGULATING VALVE

Designed for use with any positive displacement pump, Hydra-Cell C Series pressure regulating valves bypass system fluid to prevent excess system pressure. They can also be used as pressure relief valves. C Series Hydra-Cell Valves bypass system fluid to prevent excess system pressure. When a system discharge is completely closed – such as a closed spray gun, closed valve or plugged nozzle – the Hydra-Cell Valve bypasses the total system fluid flow. They also balance system pressure for multiple-gun operations. The Hydra-Cell Valve design is simple: a tapered plunger with a valve seat.

HOSE FITTINGS

The 43 Series of hydraulic hose fittings from Parker Hannifin is renowned for its ease of assembly, wide selection of shape and end formations, hose compatibility, and extensive use across markets. This cost-effective line of permanent crimp-style hydraulic fittings is designed for use with Parkcrimp crimpers to deliver "bite-the-wire" sealing and holding power. When used with Parker's No-Skive hoses, 43 Series fittings can be assembled without removing the outer hose cover, eliminating premature hose failure caused by skiving too long or too short. 43 Series fittings feature one-piece construction with chromium-6-free plating, and are compatible with petroleum-based hydraulic fluids and lubricating oils and with phosphate-ester-based hydraulic fluids.

FLOW SWITCH

Used for adjusting the maximum working pressure and safe guarding the high pressure water pipes. Ideal for steam combination applications. Low pressure limit eliminates need for additional metering devices. Working components constructed of high-grade stainless steel. PTFE and Viton seals for maximum heat and chemical resistance. Straight flow through design minimizes pressure loss through valve. Adjustable valve allows limit setting on both maximum and minimum pressures. Internal bypass valve can be easily accessed and repaired without removing the unloader from unit.

The General Pump flow switch is designed to operate in response to a low volume, low pressure flow and still allow for a high pump output flow. The system will provide reliable switching with as little as .75 GPM flow and 18 PSI from the city water supply and will also allow pump output flow up to 18.7 GPM at 4,000 PSI with negligible pressure drop through the valve. General Pump flow switches provide durable, reliable on/off switching for systems that require start/stop capability.

FOOT VALVE

Viton foot valve commonly used with harsh chemicals such as whitewall cleaner, butyl and other alkali products. Step down design to fit 1/4", 3/8" and 1/2" tubing. Hydro Foot Valves allow one-way flow of chemical concentrations. Prevents solutions from "back-flowing" into supply tubing. Constructed of corrosion-resistant plastic and rubber materials for longer life.

Polypropylene bodies with EPDM or Viton® diaphragms. Polyethylene for chemical lines. Step-down barb design allows for use with 1/4", 3/8" or 1/2" tubing. Designed for one-way flow of product and positive seal against flow in the opposite direction.

1 Piece \$38.83

POLYPROPYLENE CHECK VALVE

The 685 Poppet Check Valve incorporates a thin elastomer disc supported by a poppet that seals on the seat. Pressure in the flow direction moves the seal off the seat at about 1/3 PSI before pressure builds enough to move the poppet away from the seat. Maximum operating pressure of 125 PSI covers a wide range of air and fluid applications. Compact design with a light cracking pressure, high flow rate, and a positive seal at very low back pressure or slight vacuum. An embedded O-Ring Poppet is supplied for cracking pressure applications 1/2 PSI and higher. Hastelloy® is a superior chemically resistant spring material.

A thin elastomer disc with a poppet sealing on the seat supports the SMC 685 series Poppet Check Valve. Pressure on the direction of flow moves the seal off the seat at about 1/3 PSI before pressure builds up enough to move the poppet away from the seat maximum. Operating pressure of 125 PSI covers a wide range of applications for air and fluid.

DEMA SOLENOID VALVE

Diaphragm solenoid valves are available for 3/8-3/4" pipes, have orifices from 9/16-3/4," are constructed of brass or stainless steel, and have stainless steel seats. When energized, the plunger is pulled to the top plug, thus opening the small "pilot port" in the center of the diaphragm plate. This releases the pressure on top of the diaphragm allowing incoming pressure to lift it off the large center port. When de-energized, the solenoid plunger is pushed from the top plug by the kick-off spring and closes the pilot port. Fluid passes through the diaphragm bleed hole until pressure is equalized on both sides of the diaphragm to shut off the large port.

AUTO ALERT FLOOR SWITCH

Auto Alert provides automatic vehicle detection without frequent maintenance worries. Auto Alert is an extremely effective, yet uncomplicated, economical vehicle detection device, perfect for any drive through oriented business, parking system or as an industrial door control. The vehicle simply passes over the molded weather-resistant vinyl detector and the system is activated. Auto Alert is easily wired to lights, horn, bells, or any signaling device. For industrial use, the Auto Alert can provide an efficient method of traffic management. Located strategically around the plant, the detectors can be wired to open and close doors, activate warning signals, or actuate machinery. The car wash industry finds the Auto Alert ideal for turning equipment on and off without touching cars. The Recora Auto Alert is rugged enough to work under multi-ton trucks, yet sensitive enough to react to the smallest, lightest cars. The Auto Alert is safer, faster and easier to move to any spot in the wash tunnel or on the apron for exact timing control.

REGULATORS

The valve regulates the maximum pressure of the system by varying the flow discharged by the bypass. This product is intended to be incorporated on a finished machine and used with clean fresh water.

Piggybacks are compact and most effective when space is a constraint. Piggybacks can be ordered with different filter elements and can be modified with different springs, depending on the filtration and air regulating requirements.

Air line regulators provide controlled, consistent air pressure as required for specific pneumatic equipment connected to the air system.
